

ALEXANDRIA, VA.

SATURDAY, NOVEMBER 4.

WE MUST again appeal to our Conservative friends, and to all who are willing to aid them in the present political contest in this State, to be not only earnest but active and vigilant until the election is over. To Virginia the issues are as important as were ever presented to the people for their decision. Upon the judgment that may be passed depends, in our opinion, the future welfare and prosperity of the Commonwealth. We believe that to turn the State over to the control of the Radical leaders, at this time, would be the heaviest blow that could be inflicted upon our material interests. Never was there a greater delusion than the idea that a Radical triumph would contribute to increase capital or business, or lead to an increase of immigration and the success of industrial pursuits. It would have, in all human probability, precisely the contrary effect. Who would desire to invest his money in lands. or to build up manufactories, or to reside, in a State governed by such men, as have misgoverned and ruined the other States in the South, since the war closed. We, therefore, venture to ask those who are interested in the welfare of the country, even if they be Republicans in polities, for the sake of the old State, for themselves, for the sake of future results, to aid the Conservatives in the noble struggle they are now making to save Virginia. They save all, now, who save the State!

No man who is sincerely desirous of seeing a Conservative triumph in Virginia, and who lives in a county where there is supposed to be a Radical majority, should, on that account, be mond on Thursday. Delegates from Frederthe less determined and energetic in his action, in the present contest. He should not only vote himself but urge all his neighbors and sociation. friends to aid the Conservatives. To decrease the Radical majority, if it really exists, would | yesterday before the Young Men's Christian be a great honor; to redeem a county so situ- Association at the University of Virginia, and ated would be a still greater one. These men and others of the same high-standing, mentally and otherwise, support Grant and his party, and "close their eyes" to the outrages in the Southern States, and the plainest infractions of the Constitution. in declaring martial law and the suspension of the writ of habeas corpus.

A letter from Washington says that Francis G. King, a member of the Society of Friends, and Mr. Gibson, agent for the Osage Indians, have had interviews with the Secretary of the Treasury, President Grant and the Board of and I can't for the life of me imagine what it Indian Commissioners, on the subject of the present condition of the Osage Indians. Agent Gibson represents that there are over 800 white trespassers from Kansas on the new Osage reservation, which was recently set apart for the Indians by the government, under the most solemn pledges that white intruders should be kept away, the Indians having been forced to sell their lands in Kansas about a year ago, owing to similar encroachments.

The Legislature of Georgia, yesterday, recognized Mr. Conley, Radical, as acting Governor, when in the opinion of many, William Trammell, the Democrat, should exercise the functions of Governor. A bill for a special election for Governor in December was introduced. A resolution was passed branding as false Gov. Bullock's allegations that the Assembly meant to impeach him without investigation, and that the people did not respect the Constitution and recognize war results.

The Southern Claims Commissioners were engaged yesterday in the examination of the claims of W. Madden, Lydia Hoff, Hannah Updyke, D. J. Updyke, and B. Peyton, all of Rappahannoek county, Virginia, for small amounts of corn, fodder, hogs, and other farm products, alleged to have been used by the Federal army during the war.

In West Virginia the conservatives have elected 66 members of the Convention, and the republicans 12. In the Senate the conservatives have elected 12, the republicans 1-three holding over. In the House the conservatives have elected 45 and the republi-

Fellow Conservatives! says the Virginia Star, "If you are asleep-awake! If you are awake-move! If you are moving-walk! If dency, and his brother, Asa M. Janney, late you are walking—run to the polls next Tuesday, and make your record for Virginia, and its to resign by ill-health. At a council of chiefs, rights and interests."

The Baltimore Sun says that while the U S. soldiers are hunting the farmers of South Carolina, the Governor, comptroller, treasurer and attorney general of that State are in New York. The State bounds have latterly declined seriously in that market, having in little more than a year fallen from eighty to forty. The last decline has been generally attributed to the political raid, but the N. Y. World hears a startling rumor that there has been an over issue of \$16,000,000 State bonds.

We have the details of the emancipation bill which has now become a law in the Empire of Brazil. All the slave children born on or after the 28th of September, the day of its passage, are made free. All slaves held by the National Government, 1,650 in number, are liberated immediately, and an emancipation fund is established. Special provisions are also made for the benefit of those remaining in bondage.

The Virginia Star says that when Garrett, the Radical candidate for the Legislature from Spotsylvania, first came into this State, he asserted "that he would never cast a vote for any Southern man, be his polities what they may.' How is this? How does it suit, after what we have heard of "tyranny and proscription by Southern men?"

A letter from Sandy Spring, Montgomery county, announces the death there of Dr. Chas. Richardson, formerly of Baltimore, at the advanced age of 76 years. In the death of Dr. Richardson the community in which he resided has suffered a serious loss. He published several works on diseases and scientific subjects, and was widely known.

The question is sometimes asked :- "who is a carpet bagger?" The Baltimore Gazette answers-"Bullock, late Governor of Georgia, is a typical one." This is a good answer. Bullock can say of his advent in Georgia-"veni vidi, vici"-and the people of Georgia can now say-- "abiit, excessit, evasit, erupit!"

The Georgetown Courier, a most excellent paper, every way deserving of support and encouragement, has commenced its seventh year. We wish it great success.

Correspondence of the Alexandria Gazette. RICHMOND, Va., Nov. 3, 1871.—The attenlance at the Fair yesterday, the second day, was variously estimated at from 20,000 to 40,000 persons. The good order preserved among this vast assemblage was remarkable. But one

what diminished by the departure of sight seers who have been leaving in a pretty steady stream for the past twenty-four hours. There is quite a crowd present, however, to witness the clo-sing scenes of the Fair to-day. Many of them are attracted by the profound amusements. which consist of racing, on horseback and on foot, sack races, etc. Indeed the attractions of have been discovered, but that there is lear on the Fair, to many, seem to be these incidental exhibitions and the inspection of the city.

Many societies and associations have availed themselves of the occasion and the attendance Jeffersonville, Indiana, with the intention of of strangers, to hold their annual meetings.-Among them may be mentioned the State convention of Disciples, the Grand Division of the Sons of Temperance, the Virginia State Dental Association, the Virginia Division of the Army of Northern Virginia and the State Agricultural Society, besides any number of balls, parties and kindred enjoyments.

At the meeting of the Army of Northern Virginia, Gen. Fitz Lee was elected President Vice Presidents. A permanent organization of the society was effected.

The Virginia State Dental Association adjourned last night after a very pleasant session. Dr. H. M. Grant, of Abingdon, was elected resident for the ensuing year.

As to the Fair, opinions are much divided as to its being a success or an improvement over those of the two preceding years. The concourse of visitors was much greater, and the hand there was a decided falling off in the display of miscellaneous wares, of agricultural products, fancy work, &c.; so that the aggregate of articles on exhibition was diminished. This, it is said, was owing to the withdrawal of the premiums offered heretofore on small things, and the high charge for entering articles for exhibition. Many persons having articles of taste and merit would, it is said, have placed them on exhibition had any inducements been

> NEW YORK FRAUDS. - The Journal of Commerce, of New York, gives the following brief history and comprehensive view of the rise and progress of the Tweed rings and corruptions Jacobs, Mrs Dr which have recently come to their downfall .-Those corruptions are not peculiar to Tammany. They originated in a fusion Republican and Democratic City Government; and the machisummate them was matured through Tweed's cunning and Republican depravity :

In them is written the biography of the man for the past six or seven years; and to the record should be added the corruption that flourished in the last Legislature under Tweed's almost

autocratic sway. "We do not say that Tweed made the Legislature any worse than it was before he became senator. Its badness had for years been such that even his presence could hardly affect it injuriously. But such is the force of the man's character, such his talent for ring-making, that among all the sharp and unscrupulous men at Albany he naturally stood first, and became the centre around which rings and rings within rings revolved. It has been openly asserted and not denied that Tweed spent a million of dollars on Republicans and Democrats to carry Legislatures was much higher than it had ever been since 1857, when the Republicans first began to tamper with the city government and

THE CHEAPNESS OF VIRGINIA LANDS.-The sales made in Richmond on Monday last, under orders from the Court of Bankruptcy, indicate the cheapness of Virginia lands, and hold out inducements to those in the North and West desiring homesteads in the South, in stronger terms than any language we could use.
